

Spay Neuter Kingston Initiative

To open a low cost, high volume spay/neuter service in Kingston, ON similar to the Humane Alliance Model (humanealliance.org)

1. Pet overpopulation is a serious problem.

2. Shelters and animal service facilities cannot accomodate all the animals that come to their doors.

3. Euthanasia is not the answer for pet population control.

4. Spaying and neutering pets reduces the numbers of unwanted animals coming in to shelters and reduces the burden on resources.

5. Spay/neuter education leads to fewer homeless pets and better care for all others.
